

## Automation Systems, Integrated Equipment & Machining

JH Robotics has more than 25 years of Automation and Robotics experience. We have provided Turnkey Systems for just about every kind of industrial application. Along the way we have gained valuable integration expertise ranging from accumulators to zone safety systems.

The following is a partial list of the types of equipment we have manufactured or integrated into our turnkey automation systems:

- |                                |                                  |                      |
|--------------------------------|----------------------------------|----------------------|
| Accumulators                   | Gantries                         | Prototypes           |
| Assembly                       | Grease Dispensing                | Robots               |
| Bar Feeders                    | Grinders (Mfg. or Load/Unload)   | Saws                 |
| Bearing Assembly               | Grippers                         | Scales               |
| Bowl Feeders                   | Heat Shrink Systems              | Shears               |
| Broaching Equipment            | Hydraulic, Air/Oil & Air Presses | Shrink Wrap          |
| Buffing                        | Laser Marking                    | Sound Test Systems   |
| Check Weighing Systems         | Machining -                      | Spindles             |
| CNC Milling (Load/Unload)      | (Contract—CNC Mill & Turn)       | Stamping             |
| CNC Turning (Load/Unload)      | Marking Equipment                | Touch Screen HMI's   |
| Conveyors (Custom or Standard) | Measurement Probes               | Tubing Assembly      |
| De-Burring                     | Molding Machines (Load/Unload)   | Ultra Sonic Cleaning |
| De-Flashing                    | Packaging & Packaging Systems    | Ultra Sonic Welding  |
| Depalletizing                  | Paint Systems                    | Vision               |
| Dispensers                     | Palletizing/Depalletizing        | Washer Systems       |
| EDM Machines (Load/Unload)     | Polishing                        | Wind Energy          |
| Fastening                      | Press Systems                    |                      |
